This chart shows the distribution of job postings by work mode: on-site, remote, hybrid, and unknown.

Description: Top Hiring Companies
This visualization showcases the companies with the highest number of job postings. It highlights the key players in the job market, making it easier to identify the organizations actively seeking talent. Each bar represents a company, with the length of the bar indicating the number of job opportunities they have posted. This analysis helps job seekers target companies with the most hiring activity and better understand industry demand.
